- 3) We reserve the right to withdraw any lot prior to sale.
- 4) All successful bidders shall be billed for postage, handling and insurance.
- 5) R.M. SMYTHE reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
- 6) A SMYTHE auction bidder expressly waves any claim or right to an accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
- 7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
- 8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
- 9) In the case of a tie between a mail bidder on the book and the floor, the mail bidder shall take precedence.
- 10) All bids must be in whole dollar amounts; this includes percentage increases.
- 11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
- 12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
- 13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1½% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their bids in advance.
- 14) Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.
- 15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in New York City as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.
- 16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
- 17) SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
- 18) In the event of dispute, the auctioneer's decision is final.

GUARANTEES AND RIGHTS OF RECOVERY

- 19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
- 20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. SMYTHE reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
- 21) All material in this catalog is guaranteed to be genuine unless otherwise described.
- 22) No lots may be returned by floor bidders except for non-authenticity.
- 23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
- 24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale), notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
- 25) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.
- 26) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
- 27) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
- 28) All accounts are payable to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice. No credit card payments will be received by SMYTHE for auction sales, catalogs or other monies due to SMYTHE.

CONDITION TERMINOLOGY FOR PAPER

- Gem Unc.** (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.
- Choice Unc.** (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.
- Unc.** (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
- Choice AU** (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
- AU** (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.
- EF** (Extremely Fine) - An item which may, at first glance, look uncirculated but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.
- VF** (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.
- F** (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.
- VG** (Very Good) - A well circulated item, complete, unimpaired except for petty edge splits, pin holes, some surface splitting along heavy folds and soiling.
- Good** (Good) - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
- Fair** - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
- Poor** - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
- Abt** (before a grade) - A shade below the grade it preceeds.
- Plus or +** (following a grade) - A shade better than the grade.
- VF-EF** (hyphen between grades) - The grade is about halfway between the two grades shown.
- VF/Good** (slash between two grades) - Face and back are two different grades. The grade preceeding the slash is for the face. The grade following is for the back.

1038 1916, 1916-D. The first is quite Choice with a great deal of brilliant red original lustre and wide railroad rims on the obverse. The last Uncirculated, with a weakly struck reverse and somewhat subdued lustre. [2]

Choice Date Group

1039 1920, 1925, 1926, 1927, 1928. All Brilliant to Choice Brilliant Uncirculated Mint State 63-64. The first and last are especially Choice, but the 1925, 1926 and 1927 all have spotty toning. [5]

1040 1922-D. Choice Brilliant Uncirculated Mint State 63. Bright pink-red original mint lustre just beginning to tone. Typically struck for this date and mint.

1041 1925-D. Choice Brilliant Uncirculated Mint State 63. Light red, fully brilliant beneath light toning on the obverse. The reverse is blazing red, strongly struck for this date and mint.

1042 1929-S, 1930, 1930-D, 1930-S. Choice Brilliant Uncirculated Mint State 62-63. The first quite Choice, the others quite nice but with minor spots and fingerprints. [4]

1043 1931-D, 1931-S. Brilliant Uncirculated Mint State 61-62. The first very pale pink with a few toning spots in the obverse fields. The last bright pink and close to Choice. [2]

1044 1933, 1933-D, 1934-D. All Very Choice To Gem Brilliant Uncirculated Mint State 64-65. All three deep red, well struck, and fully brilliant. The first with deeper toning on Lincoln's face. [3]

TWO CENT PIECES

1045 1864 Small Motto. Uncirculated Mint State 62. The attractive obverse retains a good deal of original mint lustre beneath light iridescent orange and rose toning. On the reverse, lustre is quite subdued. An interesting die crack extends from the bottom of the last S in STATES through the bottoms of OF and on to the first A in AMERICA. Another joins the rim to the lower left ribbon of the wreath. (Photo)

1046 1864 Large Motto. Brilliant Uncirculated Mint State 60.

1047 1864 Large Motto. Uncirculated Mint State 62. Fully struck and free from any noticeable contact marks, this lovely example has softly lustrous satiny brown surfaces throughout. There are a few hints of bright red lustre around the date.

1048 1867. Brilliant Uncirculated Red & Brown Mint State 60. The pale pink obverse features highly reflective surfaces beneath light toning. The reverse surfaces are somewhat subdued.

1049 1871. Choice Red & Brown Uncirculated Mint State 63. Very sharply struck on both sides. The satiny smooth obverse ranges from bright orange to deeper orange and iridescent violet and pink. A new hub was made by William Barber in 1871 and the strike is so sharp that it almost appears to be doubled in places. (Photo)

1050 1871. Almost Uncirculated 50.

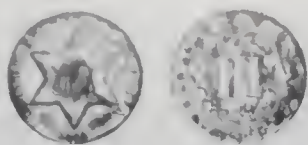

SILVER THREE CENT PIECES

1051 1851. Choice Brilliant Uncirculated Mint State 63. Frosty white original mint lustre throughout. Struck from clashed dies, with the outline of the obverse six-pointed star clearly visible in the fields on the reverse. The central portions of the obverse are weakly struck as a result. (Photo)

1052 1853. Choice Almost Uncirculated 58. Even, moderate violet gray toning throughout, highlighted by flashes of brilliant range and blue. (Photo)

- 1053 1862. Uncirculated 60. The strike is razor-sharp, almost prooflike. Traces of the original mint lustre are well-hidden beneath heavy gunmetal blue and gray tones. (Photo)

NICKEL THREE CENT PIECES

- 1054 1866. Gem Brilliant Uncirculated Mint State 65. Sharply struck from clashed dies. Frosty white throughout. (Photo)
- 1055 1867. Choice Brilliant Uncirculated but weakly struck in the central portions.

NICKEL FIVE CENT PIECES

- 1056 1868. Brilliant Uncirculated, lightly cleaned. Struck on a planchet missing metal along the reverse rim at 4:00. (Photo)

- 1057 1869. Choice Brilliant Uncirculated Mint State 63. The entire date appears to have been recut as each numeral is very wide and shallow. The remaining features on the obverse are boldly struck, but the stars on the reverse lack full definition. (Photo)

- 1058 1883 Shield Nickel. Choice Brilliant Uncirculated. Sharply struck with lustrous frosty white surfaces, just beginning to tone. The obverse die has cracked in the upper left quadrant and the letters "IN GOD WE T" appear heavy and crude. (Photo)

- 1059 1883 NO CENTS Nickel. Very Choice Brilliant Uncirculated Mint State 64. Horizontal bands of light orange and brown toning add color to the lower third of the obverse. The reverse is lightly and evenly toned.

- 1060 1892. Brilliant Proof 64. Well struck. Lightly toned with just a hint of cloudy yellow, more apparent near the edges. There is a pinpoint spot of darker toning in Liberty's hair just behind her eye, otherwise virtually free from any distracting marks or hairlines. (Photo)

- 1061 1899. Possible overdate. Choice Brilliant Uncirculated Mint State 63. This interesting example is boldly struck, fully brilliant and very attractive. The satiny white fields are clean and clear except for a few very light hairlines and a tiny pinscratch on the reverse just above the V. The last 9 in the date is wider than the first and the loop of the last nine is almost completely filled. (Photo)

- 1062 1900. Brilliant Uncirculated Mint State 62. Satiny white throughout with just a touch of light violet and golden yellow toning on the reverse. (Photo)

- 1063 1907. Choice Brilliant Uncirculated Mint State 63 with very clean, clear surfaces. Softly struck in the upper left quadrant of the obverse.

- 1063A 1912-D. Brilliant Uncirculated Mint State 60. Boldly struck for this date and mint. Pale pink toning on the obverse, deeper on the reverse. There is a very light scratch on Liberty's cheek and a long vertical scratch in the center of the V.

- 1064 1913 Type I Brilliant Uncirculated Mint State 60. 1913-D Type I Choice Brilliant Uncirculated Mint State 63, well struck, light pink and violet toning. 1913 Type II Very Choice Brilliant Uncirculated Mint State 64, boldly struck, lightly toned pink and violet. [3]

- 1065 1929-D. Gem Brilliant Uncirculated Mint State 65. Probably a first strike, this exceptional example is as bold as any 1929-D we have seen. The obverse is semi-prooflike and virtually free from contact marks. The reverse is almost as nice. (Photo)

- 1066 1937. A Very Choice Almost Complete Original Roll, Mint State 63-65, and Perhaps Better! Definitely not a put-together assortment, these extraordinary examples were found intact in an original paper wrapper marked "\$1.80", indicating that the four missing coins were removed many years ago. Virtually all of the coins are sharply struck **Gems**, with clean, clear surfaces and full brilliance. Worth well above the average roll of 1937 Buffalo Nickels and deserving of a premium bid. [36]

Another Choice Roll

- 1067 1938-D Buffalo Nickels. A Choice Original Roll, Mint State 63-65. All are fully brilliant with absolutely no dark toning or spotting. [40]

HALF DIMES

- 1068 1795. Valentine-2. Breen 3-B. Rarity 6. ("Very rare") according to Breen. VF 20. Natural light gray with traces of original mint lustre accentuating the devices. There are a few light adjustment marks in the area of the first S in STATES. A very fine pin scratches extends diagonally down Liberty's cheek, visible only when the coin is tilted to exactly the right angle. Any 1795 Half Dime commands attention in an auction. This "very rare" variety should be the subject of spirited bidding. (Photo)

- 1069 1849. Repunched date. Choice Almost Uncirculated 58. Deep gunmetal blue and golden orange toning.

- 1070 1854 Arrows. Heavily Clashed Dies. Brilliant Uncirculated Mint State 60. Difficult to evaluate because of the severe die clashes, but the original mint lustre appears to be all there and there is no apparent wear. A fascinating example, worthy of further study. (Photo)

- 1071 1857-O. Choice Almost Uncirculated 58. The strike on this example is needle sharp when compared to typical New Orleans Half Dimes of this period. Original mint lustre is present around the stars and mottos, but the toning has a somewhat artificial appearance.

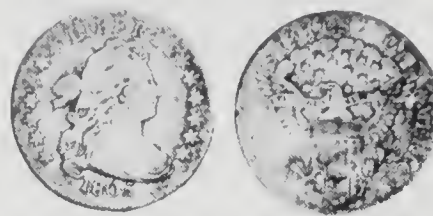

- 1072 1860. Choice Almost Uncirculated 58. Lovely light violet toning, deeper near the edges, graces the earliest example of Longacre's "Legend" design. The numerals and letters in the obverse legend are very light and thin.

- 1073 1872. Choice Brilliant Uncirculated Mint State 63. Frosty white on the obverse and an area of light golden orange toning on the reverse. (Photo)

Please note that a 10% buyers charge will be added to each lot purchased on all purchases.

DIMES

- 1074 1805. Four Berries. VG 8. Light gray, problem free. (Photo)

- 1075 1876. Choice Almost Uncirculated 58. Prooflike, beneath light to moderate violet toning on both sides.

- 1076 1876. Very Choice Brilliant Uncirculated Mint State 64. Gorgeous "porthole" toning typical of coins stored in albums for many years. The central devices are frosty white with touches of deep violet, gunmetal blue and rose toning, deeper near the periphery. (Photo)

- 1077 1879. Very Choice Brilliant Uncirculated Mint State 64. The highly reflective prooflike and frosty white surfaces, the boldness of the strike and the railroad rims all indicate that this is a possible first strike of this low mintage (15,100) date. A tiny contact mark on the arm and another a few light hairlines in the obverse field to the left of Liberty are visible under magnification, otherwise unimprovable. (Photo)

- 1078 1886. Choice Brilliant Uncirculated Mint State 63. Well struck, with silvery white lustre beneath light violet grey toning, deeper around the edges. (Photo)

- 1079 1887-S. Choice Brilliant Uncirculated Mint State 63. Light golden orange toning throughout. (Photo)

- 1080 1905-S. Uncirculated Mint State 60. Very dark, possibly re-colored.

- 1081 1911-D. Brilliant Uncirculated Mint State 60.

- 1082 1912. Choice Uncirculated Mint State 63. Creamy white, strictly original mint lustre shines softly through toning that is light golden white in some areas and spotty blue violet in others. (Photo)

- 1083 1913. Choice Almost Uncirculated 58. A boldly struck example. Frosty white beneath moderate golden olive toning on the obverse and shades of russet toning on the reverse. There are traces of cabinet friction visible only under magnification.

- 1084 1916. Barber Dime. Brilliant Uncirculated Mint State 62 and perhaps better. Toned mellow pink and violet over very clean satiny white surfaces. The strike is above average. There is very light scrape on the cheek, visible only under magnification. (Photo)

- 1085 1916. Mercury Dime. Choice Brilliant Uncirculated Mint State 63. Sharply struck with full split bands, and gorgeously toned. There is a light pinscratch on the reverse extending from E in AMERICA. 1923. Brilliant Uncirculated Mint State 62. Blazing frosty white, and the strike is needle sharp. The reverse could not be any bolder, with fully split bands, visible without magnification. There is a small patch of hairline scratches in the obverse field above IN GOD, and album slide friction on Liberty's cheek. [2]

- 1086 1924. Brilliant Uncirculated Mint State 62. A very interesting example featuring obverse fields filled with numerous die polishing lines. The reverse is unusual as well. The outer portions of several of the letters in the mottos are very wide and shallow.

Date Runs of High Grade Mercury Dimes

- 1087 1935, 1936, 1937, 1939-D, 1940-D, 1940-S. All Very Choice-Gem Brilliant Uncirculated Mint State 64-65. The last five with partially to fully split bands. An excellent opportunity to start a Choice set of Mercury Dimes. [6]

- 1088 1941 MS 62, 1942 MS 62, 1943 MS 62, 1943-S MS 63, 1944-D MS 64, 1945 MS 63, split bands. [6]

TWENTY CENT PIECE

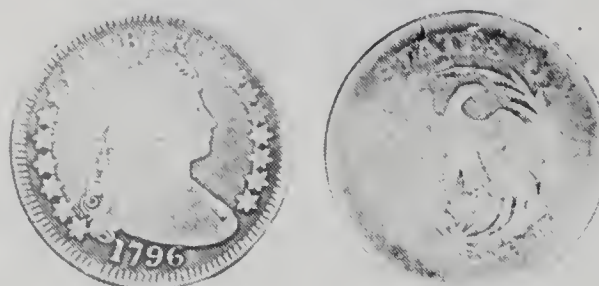

- 1089 1875-S. Almost Uncirculated 50. The lustre around the stars and in the areas outlining the main design elements is frosty white under light orange toning. Cornflower blue tones enhance the fields. In contrast, the surfaces on the central figure of Seated Liberty and her shield are dull gray. Near Liberty's elbow is what appears to be the beginning of a lamination in the field. The difficulties of evaluating this example make it almost imperative to examine the coin personally before bidding.

QUARTERS

- 1090 1796. Browning 2. High 6, Shattered Die. Fine 12, a minor nick in the obverse rim at 2:00 and another on the reverse rim at 4:00. Natural silvery gray. There is a very fine and shallow scratch extending across the tip of the eagle's beak, well healed, and hardly distracting. The other surfaces are very clear and clean for this grade. (Photo)

- 1091 1796. Browning 2. High 6. Good/About Good. There is evidence of a light cleaning many years ago, but the coin has toned back to a nice, even silvery gray with darker fields. There are a few light scratches, hardly visible and not the least bit distracting. The reverse, unevenly struck, lacks detail in the left and right quadrants. An excellent opportunity for the type collector working with a limited budget. (Photo)

- 1092 1825. 25 Over 3, Close Date. Browning 3. Rarity 2. Extremely Fine 45. Medium gray with hints of olive and iridescent blue toning. Traces of mint lustre appear around the stars and mottos. Sharply struck. There is a 1mm pinscratch in the field in front of Liberty's nose and a light rim scrape at 3:00 on the obverse. Both are barely noticeable on this pleasing example offering almost all the sharpness and detail of an Uncirculated specimen. (Photo)

- 1093 1835. Browning 1. Choice Almost Uncirculated 55. This sharply struck example retains almost all of the original mint lustre in the fields and on the main design elements beneath iridescent sea blue, olive green and orange toning. Lightly circulated, as evidenced by numerous microscopic hairlines in the fields, but this coin would fit comfortably into a collection of toned Uncirculated examples. There is a very light and shallow pinscratch extending from between stars 1 and 2 to Liberty's neck, visible only under perfect lighting. An interesting die crack starts at the base of the A in STATES and runs across to the base of the R in AMERICA. (Photo)

- 1094 1858. Uncirculated Mint State 61. Moderately toned blue and pink over surfaces that vary from frosty to highly reflective. Well struck except for the upper left quadrant of the obverse.

- 1095 1893-O. Mint Mark Far to the Right. Very Choice Brilliant Uncirculated Mint State 64. An outstanding example. Boldly struck, with soft, satiny, strictly original mint lustre throughout. A hint of pale pink and violet toning adds to the overall natural and pleasing appearance. Almost unimprovable, but the eagle's right claw and feathered ends of the arrows are not fully struck. (Photo)
- 1096 1912. Uncirculated Mint State 61. Creamy white beneath light golden to dark golden toning. The strike is about average. A light scrape in the obverse field near the last two stars is well hidden by the toning. The reverse between the A in dollar and the arrows was struck through a metal fragment leaving a straight, narrow depression in the field.
- 1097 1916-D. Uncirculated Mint State 62. Pink and silvery gray over satiny white surfaces retaining a great deal of original mint lustre. The strike is average and there are a few very faint album slide hairlines on Liberty's cheek.
- 1098 1917 Type II. Choice Uncirculated Mint State 63. Nicely toned with shades of charcoal gray and iridescent orange and brown. The head is about 2/3 full.
- 1099 1917 Type II. Choice Brilliant Uncirculated Mint State 63. A mist of very pale pink lightly veils about 50% of the brilliant, satiny white obverse surfaces. The reverse is lightly and evenly toned. Liberty's head is struck 2/3's full.
- 1100 1918-S. Choice Almost Uncirculated 58. Brilliant on the obverse, darkly toned charcoal gray on the reverse. A fine die crack connects the upper portions of the 9, last 1 and 8 in the date. Just a hint of wear, barely detectable along Liberty's leg.

- 1101 1929. Very Choice Brilliant Uncirculated Mint State 64, and perhaps better. Frosty white with just a hint of misty violet toning. The head is about 1/2 full. There is a minor contact mark visible just below Liberty's knee, otherwise virtually pristine. (Photo)

HALF DOLLARS

- 1102 1811/10. Punctuated Date. Overton 101. Rarity 3. Choice Very Fine 30. Natural silvery gray, lighter where wear is indicated. There are traces of original mint lustre in the recesses of the mottos on the reverse. A shallow, well healed 2mm pinscratch extends from the tip of Liberty's nose.

Lot 1103

- 1103 1830 Small 0's. Overton 115. Almost Uncirculated 50. Nice, natural silvery gray with frosty mint white mint lustre apparent on about one third of the very clear and clean surfaces. (Photo)
- 1104 1831. Overton 106. Rarity 1. Almost Uncirculated 50. There are very faint initials, barely observable in the obverse field near stars 1 and 2. The lightly toned reverse is very close to Mint State.
- 1105 1832. Overton 101. Almost Uncirculated 50. Spotty light gray toning with hints of gold closer to the edges.
- 1106 1832. Overton 111. Almost Uncirculated 50.
- 1107 1832. Overton 111. Almost Uncirculated 50.
- 1108 1854 Arrows. Almost Uncirculated 50. Possibly dipped, the softly reflective, almost prooflike surfaces lack frostiness or sparkle, but no wear or hairline scratches are in evidence.
- 1109 1861. Uncirculated Mint State 60. Boldly struck with razor sharp detail through. Lightly and evenly toned in shades of pale pink over creamy white surfaces. The higher portions of the obverse are darker, probably due to storage in a paper 2 x 2.
- 1110 1908-D Brilliant Uncirculated Mint State 62. Boldly struck on the obverse. Pale violet with hints of orange, the toning slightly subdues the lustre on the almost prooflike, softly reflective surfaces. There is a 1mm contact mark on the cheek below the ear, and a patch of darker toning in the fold of Liberty's cap.
- 1110A 1917. Uncirculated Mint State 60. Lightly and evenly toned. There is a dark green fleck of toning on the reverse under the branch.
- 1111 1917-S Obverse. Almost Uncirculated. Dipped and lightly cleaned, but with age this will be a very presentable example. Softly struck in the central portions, bold near the edges. Higher grade circulated coins of this date and type are always in demand.

- 1112 1936. Very Choice Proof 64. possibly better. Creamy pale pink toning with iridescent highlights graces both sides. (Photo)
- 1113 1938. Proof 62. A narrow crescent of chocolate brown toning rims the left portion of the obverse and coats a large proportion of the reverse. There are several very light microscopic hairlines in the obverse field over IN GOD, well hidden in an area of creamy toning.
- 1114 1938. Gem Brilliant Uncirculated Mint State 65.

- 1119 1953. Brilliant Uncirculated MS 62-65. A better than average Choice original roll, found wrapped in aluminum foil inside paper. [20]

SILVER DOLLARS

- 1120 1798. Heraldic Eagle. Knobbed 9, Cross Pattern Reverse. Bolender 6. Rarity 3. EF-40, very lightly cleaned. A die break extends from Star 1 in an arc through the bottom of the 7 and into the 9 in the date. There is a minor bruise at 2:00 on the reverse rim. (Photo)

- 1121 1798 Heraldic Eagle. Pointed 9 Cross Pattern Reverse. Bolender 14a. Rarity 6. Very Fine 30. The final curl is incomplete and the die is shattered from Star 1 through Star 7 and the L in Liberty. Silvery gray, lighter on the higher portions. Original mint lustre remains in the recessed areas. (Photo)

- 1122 1798 Heraldic Eagle. Bolender 14b. Rarity 5. Pointed 9 Cross Pattern Reverse. Fine 12. As on the previous lot, the final curl is incomplete. The die has deteriorated further. Star 7 and the L in Liberty are both partially obliterated. The natural silvery gray toning is quite appealing. There are two minor rim nicks, but neither is very distracting. (Photo)

- 1123 1798. Heraldic Eagle. Pointed 9, Arc Pattern Reverse. There are several adjustment marks on the face and light initials scratched into the obverse field at left, otherwise Fine.

- 1124 1799. Normal Date. Bolender 5a. Rarity 3. There are several rim nicks and bruises, the most noticeable at 12:00 on the obverse, otherwise this natural gray example grades Very Fine. (Photo)

Extremely Fine, perhaps better, and with all the characteristics of a circulated Proof. Silvery gray with some areas of light to moderate toning. The obverse railroad rim is clear and free from defects, but the rim on the reverse is bruised. Only a 1,000 of this original type were minted for circulation. Certainly one of the most eagerly collected U.S. Dollars. (Photo)

- 1126 1859-O. Almost Uncirculated 50. Very lightly cleaned and now beginning to tone back down.

- 1148 1923-S. Choice Brilliant Uncirculated MS 63. The strike, a bit soft in the central portions, is typical for this date, but the wonderfully iridescent light violet, red and blue toning on both sides is exceptional.

QUARTER EAGLES

- 1165 1836. **Very Fine.**
- 1166 1847-C. **Very Fine 20.** There is a very light pinscratch extending from the Star 1 to Liberty's neck. Only 23,266 were minted. (Photo)
- 1167 1850. **Very Fine 30.**
- 1168 1853. **Almost Uncirculated 50.** Bright golden yellow, with a good deal of original mint lustre, but there are a few hairline scratches across Liberty's face
- 1169 1866-S. Soldered to a piece of jewelry at some time in the past. Lightly polished, with minor damage to the rim where the solder was removed. Otherwise **Very Fine**, and still very collectible as the price for higher grades of this relatively scarce date becomes prohibitive. (Photo)
- 1170 1879-S. **Extremely Fine 40.** A light scrape extends horizontally across Liberty's nose and up to Star 5.
- 1171 1897. **Very Choice Brilliant Uncirculated MS 64.** Bright frosty yellow with virtually immaculate fields on both sides. There are a few ultra light contact marks on Liberty's cheek, seen only under magnification. The strike is well above average. A tiny rim nick near opposite Star 5 is barely visible and mentioned only for means of identification. Very close to Gem quality. (Photo)
- 1172 1900. **Brilliant Uncirculated MS 60.** Bright and lustrous but with a few stray contact marks in the fields.
- 1173 1903. **Almost Uncirculated 50.** Very lightly cleaned.
- 1174 1903. **Brilliant Uncirculated MS 60,** lightly cleaned. There are light, microscopic hairline scratches in the fields and on the face and cheek, otherwise very bright golden yellow with frosty, lustrous surfaces.
- 1175 1905. **Brilliant Uncirculated MS 62.** Sharply struck and bright golden yellow accentuated by deep orange peripheral toning, darker near Stars 2 and 4. (Photo)
- 1176 1905. **Brilliant Uncirculated MS 60.**
- 1177 1906. **Brilliant Uncirculated MS 60.**
- 1178 1907. **Brilliant Uncirculated MS 61.** Bright golden yellow with satiny surfaces, highly reflective in spots. The reverse is **Choice.** (Photo)
- 1179 1910. **Brilliant Uncirculated MS 60.** Struck from a die that caused a circular depression in the fields beneath the stars and mottoes.
- 1180 1911. **Brilliant Uncirculated MS 62.** Bright golden yellow and well struck. (Photo)
- 1181 1911. **Choice Almost Uncirculated 58.**
- 1182 1911-D. **Very Choice Almost Uncirculated 58** with just a trace of wear on the highest points. This example would fit comfortably into any set of Uncirculated \$2 1/2 Indian Quarter Eagles. Only 55,680 were struck making this the lowest mintage date in the series and always in demand. (Photo)
- 1183 1914. **Extremely Fine.**
- 1184 1925-D. **Brilliant Uncirculated MS 61.** The deep golden yellow obverse is close to **Choice**, but numerous light parallel scratches appear in the fields on the reverse when the coin is tilted.
- 1185 1926. **Brilliant Uncirculated MS 61.** Deep golden yellow with a great deal of original, frosty mint lustre. There is a 1mm scratch on the Indian's jaw.
- 1186 1928. **Almost Uncirculated 50.** The Indian's bonnet has a patch of deep orange toning.

GOLD THREE DOLLARS

- 1187 1878. **Choice Almost Uncirculated 55.** Retaining most of the original "cartwheel" mint lustre, this bright yellow example appears to be Uncirculated at first glance, with no distracting contact marks and very clean rims. (Photo)

- 1188 1878. **Extremely Fine**, lightly cleaned.

HALF EAGLES

- 1189 1835. **Very Fine 20.** There are a few light scrapes in the fields, and a very fine pinscratch extends from beneath the last digit in the date and on to Star 13. The reverse has a few minor nicks on the rim.

Choice 1844-O Half Eagle

- 1190 1844-O. A boldly struck example, cameo prooflike in appearance. Very light wear has left microscopic hairlines in the highly reflective fields, but there are no significant contact marks on Liberty's frosty features. **Choice Almost Uncirculated 55.** Well worth a premium bid. (Photo)

- 1191 1847-C. **About Good.** There is a heavy scratch across Liberty's cheek, and a great deal of honest wear around the edges.

- 1192 1849-C. **Very Good 8.** Evenly worn with no heavy contact marks.

Rare Dahlonega Date

- 1193 1852-D. **Very Fine**, cleaned. There is a long, straight depression between the rim and Stars 1 to 3. Only 51,984 were struck.

- 1194 1870-CC. **Very Fine 20.** Only 7,675 minted. According to Breen, prohibitively rare above Very Fine. Evenly worn on both sides with no distracting scratches, scrapes or nicks, this example represents an excellent opportunity for the advanced collector of Carson City gold. (Photo)

- 1195 1880. **Extremely Fine 40.**

- 1196 1883-CC. **Good/AG.**

- 1197 1893-S. **Almost Uncirculated 50.** There is a heavy, 4mm scrape behind Liberty's mouth.

- 1198 1903-S. **Almost Uncirculated 55.** Frosty golden yellow, and very close to Uncirculated. There is a vertical scrape across Liberty's chin.

- 1199 1904. Bright yellow with a great deal of frosty mint lustre. **Brilliant Uncirculated MS 62**, very close to **Choice.**

- 1200 1908-D. **Extremely Fine 40.** A pinscratch extends from Star 1 to the Indian's neck.

- 1201 1908-S. **Choice Almost Uncirculated MS 58.** Just a trace of wear on the high spots, as close to Uncirculated as you can get. Only 82,000 were minted. (Photo)

- 1202 1909-D. **Almost Uncirculated 50.**

- 1203 1909-S. **Extremely Fine 40.**

- 1204 1910-S. **Almost Uncirculated 50.** There is a small scrape on the Indian's chin and a contact mark on his jaw. On the reverse a long pinscratch appears in the field near the eagle's chest and runs down through the motto. Very rare in Mint State, and this example comes close. (Photo)

- 1205 1911-D. **Extremely Fine 40.** 72,500 were minted, all from the same dies. Very scarce and desirable. (Photo)

EAGLES

- 1206 **1843-O. Very Fine 30.** With traces of original mint lustre on the boldly struck reverse. There are two very light rim bruises on the obverse, hardly noticeable.
- 1207 **1844-O. Very Fine 20,** lightly cleaned.
- 1208 **1851. Extremely Fine 40.** There is a bruise on the reverse rim at 9:00.
- 1209 **1851-O. Very Fine 30,** lightly cleaned.
- 1210 **1878. Extremely Fine 40.**

Rare Carson City Date

- 1211 **1881-CC. Extremely Fine,** cleaned, possibly with an eraser. Only 24,015 were made. Rarely found above Almost Uncirculated and always in demand.
Ex Stack's Walton Collection Duplicates 6/63, Lot 433.
- 1212 **1881-O. Extremely Fine 40.** A long, heavy scratch extends parallel to the front of Liberty's coronet and forehead. Only 8,350 were minted.
- 1213 **1885. Brilliant Uncirculated Mint State 60.**
- 1214 **1890-CC. Choice Almost Uncirculated 55.** A lovely Carson City coin with cameo contrast and most of the original mint lustre still present. A long, shallow pinscratch begins near the CC mint mark and extends out to the rim near "D." (Photo)

Another Nice Carson City Eagle

- 1215 **1891-CC. Almost Uncirculated 50.** A sharply struck example with much of the original mint lustre present. Formerly Lot 128 in Stack's September 1965 Public Auction.
- 1215A **1891-CC. Extremely Fine 40.**
- 1216 **1892-CC. Extremely Fine,** polished. Traces of original mint lustre remain in the recesses of the lettering and between the stars.
- 1217 **1901. Brilliant Uncirculated Mint State 62.** Very close to Choice. (Photo)
- 1218 **1905. Brilliant Uncirculated Mint State 61.**
- 1219 **1905-S. Extremely Fine 45.**
- 1220 **1913-S. Almost Uncirculated 50.** Light, even wear is apparent, but a great deal of satiny lustre remains on this scarce \$10 Indian. Only 66,000 were minted and they are rarely encountered above this grade.
- 1221 **1932. Choice Brilliant Uncirculated MS 63** according to NCI. Formerly Lot 1626 in the 1989 Long Beach Heritage Sale. There are a few trivial scratches on Liberty's cheek. A 2mm scratch appears in the field above PLU on the reverse. Bright yellow, with smooth, satiny surfaces. (Photo)
- 1222 **1932. Brilliant Uncirculated Mint State 61.** (Photo)

DOUBLE EAGLES

- 1223 **1850. Closed 5.** There is a die break beginning at the E in UNITED and extending through the top of the last S in STATES. **Very Fine 30.** There is a long but shallow pinscratch on the reverse between the Y in TWENTY and R in AMERICA. A few minor rim nicks are hardly distracting.
- 1224 **1854. Extremely Fine 40,** cleaned. There is a 3mm scratch in the field between Star 12 and 13.
- 1225 **1861. Extremely Fine 40.** At 2:00 on the obverse rim there is a small scrape. A heavy contact mark appears just in front of Liberty's ear and there are is a light scratch behind her nose.
- 1226 **1863-S. Almost Uncirculated 50,** lightly cleaned. Quite attractive with clear, clean surfaces. There are a few very minor rim scrapes, hardly noticeable.

- 1227 **1865-S. Very Fine 20.** There are a few trivial rim bruises.
- 1228 **1868-S. Very Fine 20.** There is a 2mm vertical scratch just behind Liberty's eye.
- 1229 **1871-CC. Very Fine 20.** Only 17,387 of these Carson City Double Eagles were minted and very few auction appearances have been recorded. Here is a rare opportunity to acquire one of the most elusive dates in this series. There are a few light scratches in the fields, typical for the grade, but overall this is a very pleasing example. (Photo)

Another 1871-CC

- 1230 **1871-CC. Fine,** lightly polished, formerly mounted in jewelry. Rare, and quite collectable even in this grade.
- 1231 **1872-S. Extremely Fine 40,** light golden yellow. The reverse is Choice for this grade.
- 1232 **1872-CC. Extremely Fine 40.** There is a nick across the bridge of Liberty's nose and scattered contact marks in the obverse fields, but the lustrous reverse is quite Choice for this grade. Only 26,900 were produced. Better grade examples have proven to be very rare. (Photo)
- 1233 **1873 Open 3. Extremely Fine 40.** There is a heavy gash above Liberty's eye and another on her neck.
- 1234 **1873-CC Closed 3. Extremely Fine 45.** Numerous light contact marks, commensurate with this grade, are scattered across the light golden yellow obverse. The fully lustrous reverse is technically a grade higher. Here is another fine opportunity to add a low mintage (22,410) Carson City Double Eagle to your collection. (Photo)
- 1235 **1873-S. Closed 3. Very Fine 30.** There are a few light scrapes on the rims.
- 1235A **1874-CC. Extremely Fine 40.** Most Carson City Double Eagles of this era seem to be heavily bagmarked, and this example is no exception. Bright golden yellow with a lustrous reverse. The rim at the top of the obverse has a moderate scrape and there is a heavy bagmark under the eagle's right wing. One of the few easily affordable dates in the Carson City series. (Photo)
- 1236 **1875-CC. Close CC. Extremely Fine 40.** The usual heavy bag marks are present and there are few rim nicks and scrapes, but a great deal of original mint lustre gives a more pleasing appearance to this example; reverse is Choice for this grade. (Photo)
- 1237 **1875-CC. Very Fine 30,** lightly cleaned.
- 1238 **1875-S. Almost Uncirculated 50.** There are numerous light hairline scratches in the fields and a heavy bagmark in Liberty's hair.
- 1239 **1876-CC. Close CC. Extremely Fine 40.** Relatively free from the usual heavy bagmarks. There is 1mm patch of charcoal gray toning well hidden is Liberty's hair. (Photo)
- 1240 **1877-CC. Very Fine 30,** perhaps better. Exceptionally clean and clear fields for this grade and series. Traces of deep golden toning accentuate the devices and the reverse retains some of the original mint lustre. (Photo)
- 1241 **1878-CC. Extremely Fine 40** due to a heavy scratch from Star 5 to the top of Liberty's forehead. Opportunities to acquire better examples of this low mintage (13,180) Carson City Double Eagle are few and far between. (Photo)
- 1242 **1879-CC. Very Fine 30.** A rare date. Only 10,708 were struck. Both sides retaining traces of mint lustre. (Photo)
- 1243 **1879-CC. Very Fine 30.** While this example has a bit more detail than the one in the previous lot there is a noticeable scrape on the reverse rim at 8:00. Previously sold as Lot 902 in Stacks October 1968 Sale. (Photo)
- 1244 **1879-S. Very Fine 20.**
- 1245 **1879-S. Very Fine 20.**

Choice 1882-CC

- 1246 **1882-CC. Very Choice Almost Uncirculated 55.** Cameo prooflike when new, this example exhibits frosty lustre on the central devices and highly reflective, mirror-like fields with numerous light contact marks. There is just a trace of wear on the highest points and the reverse is very **Choice**. (Photo)
- 1247 **1882-CC. Extremely Fine 45.** Bright yellow with traces of the original prooflike surfaces around the stars and between the letters of the motto. (Photo)
- 1248 **1883-CC. Choice Almost Uncirculated 55.** Bright golden yellow with hints of orange toning on the fully lustrous reverse. The only clearly visible signs of circulation are light contact marks in the fields. The obverse rim is bruised near Stars 1 and 2. (Photo)
- 1249 **1883-CC. Extremely Fine 45.** Nicely balanced, both sides toned in shades of light golden orange. There is a bagmark in the field near Liberty's chin, but it blends into the overall pleasing appearance of this Carson City Double Eagle. (Photo)
- 1250 **1884-CC. Almost Uncirculated 50.** Well struck with frosty golden yellow surfaces. A few light rim scrapes are hardly noticeable. (Photo)
- 1251 **1884-CC. Very Fine 30.**
- 1252 **1885-CC. Very Fine 30,** and perhaps better. Always found weakly struck, and the reverse certainly is worthy of an **Extremely Fine** designation. There are a few very light nicks on the obverse rim, mentioned for the sake of accuracy. Scarce. Only 9,450 minted. (Photo)
- 1253 **1889-CC. Very Fine 20.** The beveled obverse rim is scraped, most noticeably between Stars 9 and 11.
- 1254 **1890-CC. Almost Uncirculated 50.** Bright and lustrous. (Photo)
- 1255 **1890-CC. Almost Uncirculated 50.** Softly lustrous beneath light golden orange toning. The obverse fields are satiny smooth with very few contact marks of any kind. (Photo)
- 1256 **1892-CC. Very Fine 30,** perhaps better.
- 1257 **1890-CC. Extremely Fine 40.**

Final Year Of Carson City Twenties

- 1259 **1897-S. Brilliant Uncirculated MS 61.** Bright golden yellow with very lustrous lightly frosted surfaces. (Photo)
- 1260 **1900-S, 1901-S. Both Very Fine 30.** [2]
- 1261 **1901. Brilliant Uncirculated MS 61.** Sharply struck and deep golden yellow. The very bright obverse fields have a few shallow scrapes and scratches. The reverse is close to **Choice**. (Photo)
- 1262 **1903. Brilliant Uncirculated MS 62.** Boldly struck and very close to **Choice**. There is a very fine pinscratch across part of Liberty's cheek, visible only when the coin is tilted. (Photo)
- 1263 **1904. Choice Brilliant Uncirculated MS 62.** Golden yellow with hints of pink toning. Liberty's cheek and neck are very clean. There are a few scattered contact marks in the fields, most visible near Star 1. Very close to **Choice**. (Photo)
- 1264 **1904. Brilliant Uncirculated MS 60.** There is a light rim nick near Star 10.
- 1265 **1904-S. Brilliant Uncirculated MS 60.** Golden yellow with softly lustrous satiny surfaces.
- 1266 **1907. Arabic Numerals. Brilliant Uncirculated MS 60.**

- 1267 **1907. Arabic Numerals. Almost Uncirculated,** lightly polished, perhaps worn as a pendant.
- 1268 **1908. No Motto. Brilliant Uncirculated MS 60.** Deep golden yellow and very bright.
- 1269 **1908. No Motto. Brilliant Uncirculated MS 60.** Pale golden yellow and softly lustrous.
- 1270 **1908-D. No Motto. Almost Uncirculated 55.** Deep golden yellow with light orange highlights. A few pinpoint spots of deeper toning appear in the obverse fields near the date.
- 1271 **1913. Almost Uncirculated 50.**
- 1272 **1914-S. Brilliant Uncirculated MS 61.** Deep golden yellow, boldly struck in the central portions. (Photo)
- 1273 **1915. Almost Uncirculated 50.** There are four heavy scrapes in the field to the left of Liberty.
- 1274 **1923. Brilliant Uncirculated MS 60.**
- 1275 **1924. Choice Brilliant Uncirculated MS 63.** Only a small contact mark away from **Very Choice**. Satiny yellow with very clean and clear surfaces. There are a few areas of burnt orange toning, the most prominent near Liberty's foot. (Photo)
- 1276 **1924. Brilliant Uncirculated MS 61.** Frosty golden yellow and with very few contact marks. Close to **Choice**, but the strike is a bit soft.
- 1277 **1924. Brilliant Uncirculated MS 60.**

Why do collectors and major dealers consign to our sales on a regular basis? The answer is simple - we get results. Our June 1990 Memphis auction realized over \$1,000,000. (A year later our competition realized less than \$200,000). Our recent records include the highest price realized for a state note (\$14,850) - the top price achieved at auction for a Confederate note (\$16,500) - the largest total prices realized for an American Stock and Bond Auction (over \$250,000) - and the highest total achieved for a Confederate Auction (over \$500,000). While we are widely acknowledged as one of the nation's leaders in paper collectibles, we have also had many successful coin auctions, including U. S. and foreign material.

If you are thinking of selling, the next few weeks could be extremely important to you. The April 16 deadline for Memphis is rapidly approaching. Don't miss this opportunity to showcase your collection in what may prove to be the best auction of 1992. Consigning is easy. Send your material by registered mail or dial 1-800-622-1880 and we'll take it from there. VIRGINIA OBSOLETE CURRENCY

The following offering of Virginia obsolete currency is noteworthy because it is probably the largest of its kind since NASCA's Affleck Sale in January, 1983. Also this year we'll see the publication of the new and revised Affleck book put out by the Virginia Numismatic Association (VNA). The catalog numbers used are from that new work written by Richard Jones and Keith Littlefield, designed and printed by Frank R. Hannah and Multiprint. VNA numbers have been used except where Haxby numbers were available for bank notes. Because of different standards, VNA lists some institutions as banks which Haxby does not recognize. We would like to thank VNA for supplying us with a draft copy for our use in cataloging. At press time, the VNA plans to have unbound copies available at the Baltimore Show for sale, with the possibility that there may also be hard cover copies. These will be sold at our table. We urge you to buy this useful book.

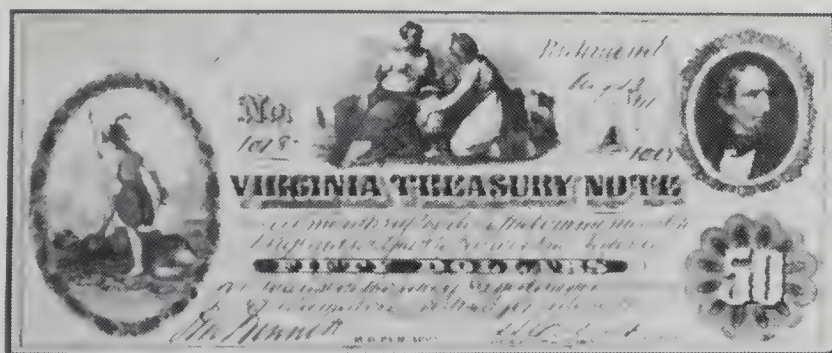

COMMONWEALTH ISSUES

- 1701 COMMONWEALTH OF VIRGINIA. \$1000. (VT01-06). R-7. Full orange. Proof, on card by BBC. Unc., four small POC. Virtually Unimprovable! (Photo) (\$2500-Up)

Only four of these bonds are known to us; one in the Richmond archives, another in the hands of a Virginia collector, and two proofs from the American Bank Note archives. One of these is in private hands; the fourth specimen is the one offered here. The last reported sale of a proof was at \$4,000.

Note: Please see photo plate page for enlargement of this Note.

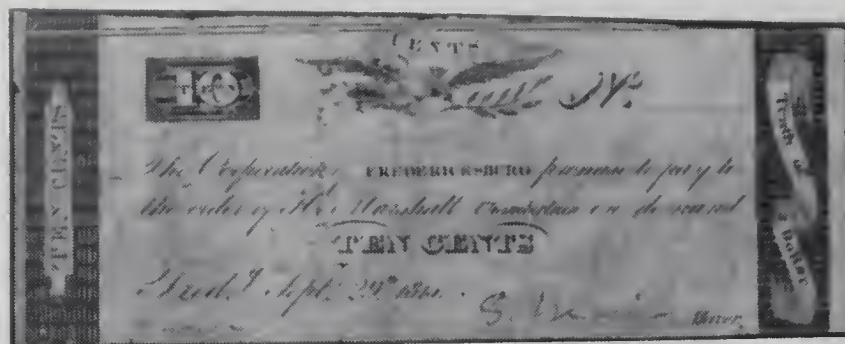

- 1702 COMMONWEALTH OF VIRGINIA. \$50. (VT02-08). VF or so, three vertical quarter folds and some other folding, all light. The face appears to be pristine. (Photo) (\$600-Up)

City Note Sheets

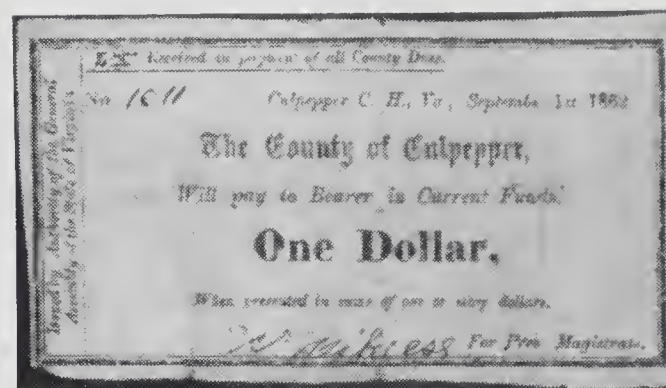

- 1727 CORPORATION OF ALEXANDRIA. \$1-\$2. (TA05-24,28). R-7. Proof pull on card from the original plate. Ex ABN stamped on the back. Unc. (Photo) (\$150-Up)
The controversy regarding items such as this are still under discussion within the obsolete collecting community. Some feel that pieces such as this are from the 1973-1976 period when ABN was doing souvenir card preparation. Others feel they are contemporary and are only "light" or "trial" pulls. However, the point can sometimes be academic, if the note doesn't exist in any other form, then, what is it worth? Sold As Is; No Returns.

Extremely Rare Sheet

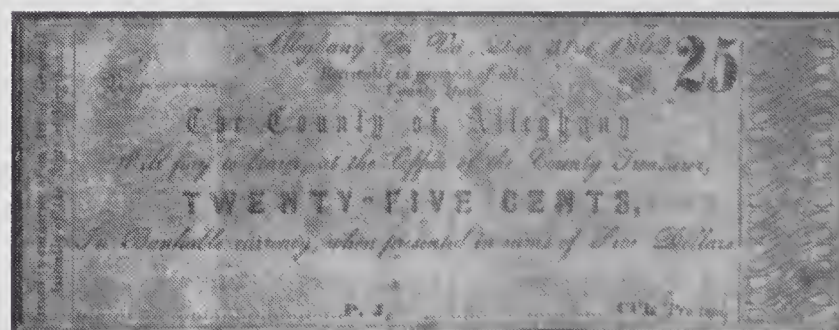

- 1728 CORPORATION OF CHARLOTTESVILLE. Sheet of 50c notes, a column of five and two vertically on the right side. On paper watermarked "C. Ansell 1855". VF, top right corner tip torn off, some edge separations. (Photo) (\$400-Up)
C. Ansell was a British stationery firm in London which had house paper made for it by the local paper mills. Some of this paper, dated 1863 was used on the Confederate bonds, Cr.125A.

COUNTY NOTES

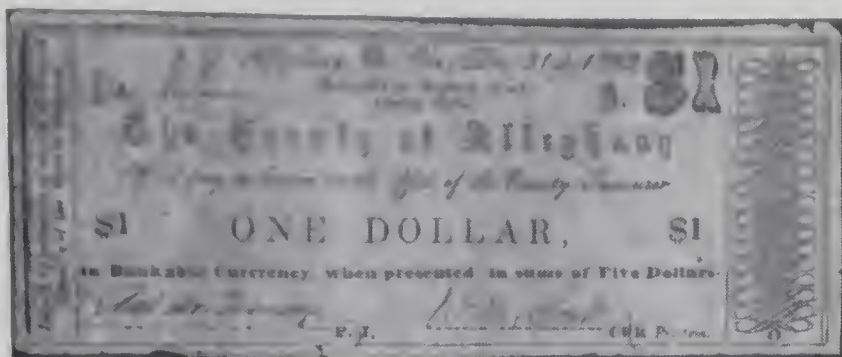

An Excessive Rarity

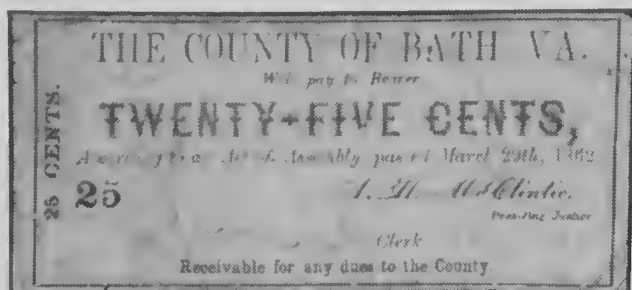

- 1729 COUNTY OF CULPEPPER. \$1. (CC13-08). VG, some face soiling. This is the Affleck and VNA plate note. (Photo) (\$1500-Up)
This note, Lot 1411 in the Affleck Sale, brought \$5,250 plus 5% in one of the most exciting lots of that entire sale. While admittedly one of three notes known on this county, that only partially explains the highest price realized up to that time for an obsolete note. It appears that the late owner sent two agents to the sale who were apparently overheard discussing their instructions as regards this note. This intelligence was passed along to a collector who had long wanted to buy such a note for himself. Furious and frustrated, he resolved that he would make the winner pay dearly for the privilege of acquiring this item. We believe that the present estimate more nearly represents this rarity's current market value.

- 1730 COUNTY OF ALLEGHANY. 25c. (CA05-01). Fine, plus; light scattered staining. (Photo) (\$250-Up)

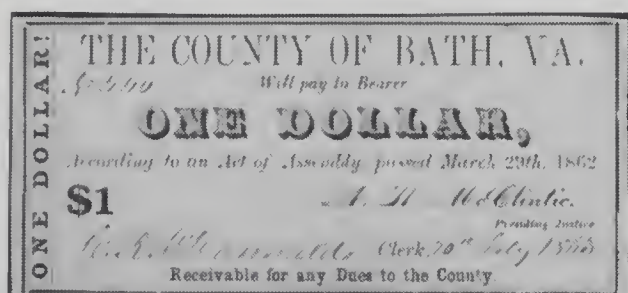

- 1731 COUNTY OF ALLEGHANY. \$1. (CA05-03). VG, petty edge tears. (Photo) (\$300-Up)

Jones was appointed postmaster at Front Royal in 1848 and served until June 1861, when Federal mail service was suspended. He was then continued by appointment as a Confederate postmaster until the end of the war. His was almost certainly the northernmost Confederate post office in operation from 1862 on. At the end of the war he was continued in office by the Federal authorities until he was replaced in September, 1865. He operated his office out of his general store. It was his general policy to put his postmaster stamp on the back as a validation device, the notes being largely issued in 1861 because by mere oversight, the Confederate Congress had failed to provide that Confederate treasury notes should be receivable for postage. In the present case it has faded away, if, indeed it was affixed to the note in the first place.

This item was unlisted in the VNA book in February. It was a check of Stover, Hutchinson & Co. The check, with a green safety tint on black, was originally printed by Robert Bell, Stationer, at 61 King Street, which is a possible Alexandria address. "ONE" and "1" have been written in ink, and the check is made payable to bearer. Whether this was issued by the Mayor on behalf of the municipality, like some of the sheriff notes, or was a private venture, is hard to say. The number on this note is 367, proving that a considerable amount of time and effort went into this series' preparation and issue. It is reported that other denominations from 50c up to \$5 have been seen, and that the authenticity of these items has been questioned, hence their exclusion from the VNA book.

Louisiana Sutler Tie Note

The Eighth Brigade of the Army of Northern Virginia was made up of the 6th, 7th, 8th and 9th Louisiana Infantry regiments, later joined by the 5th. During the Seven Days' battles, it was commanded by BG Richard Taylor, son of President Zachary Taylor and later a Lieutenant General in Louisiana. It was part of "Stonewall" Jackson's Corps and Major General Ewell's division. Subsequently, it was part of Jubal Early's Division of the Second Corps, BG Harry T. Hays commanding. It was generally reported after 1862 under the name of its commander, rather than its number, a common Confederate practice. Edward's function in 1862 was to pick up mail addressed to this unit at the Richmond post office, to which it was directed, and then carry it, together with current newspapers, to the troops in the field. He would then return with any letters that had been given to him in order that they could be posted from Richmond.

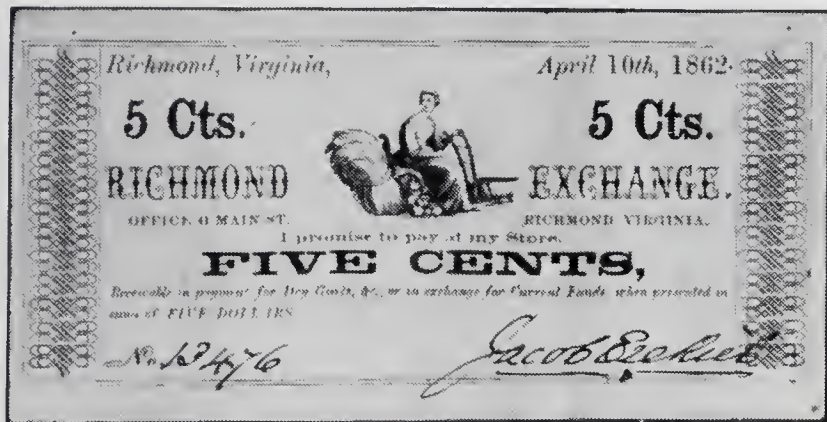

In that era, before government censorship became pervasive, the troops frequently learned more about what was going on with their own army from the newspapers than they did from their own commanders. And, of course, the soldiers also wanted to know what was happening elsewhere. Edwards made his money charging for the sale of the newspapers, selling postage at a premium and selling other items as occasion offered. Confederate orders prohibited such activities by mid-1863, unless one was an appointed sutler. The institution of unit postal service also obviated the need for Edwards' services.

- This looks a lot better than the VNA plate note.

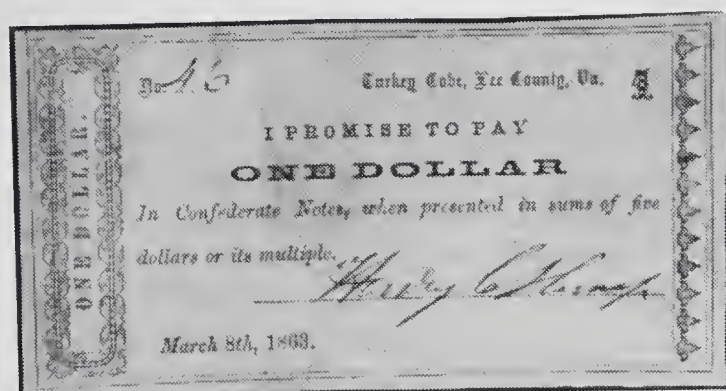

An Extremely Important Sutler Note

- 1904 Army of Northern Virginia. SUTLER, STONEWALL BRIGADE. 50¢. (PS95-05). R-7. Ex Abner Reed, Lot 1446, VNA plate note. Fine, the signature is faded and there is a small piece out of the top edge. (Photo) (\$750-Up)

There is a note in Charlie Affleck's hand stating that he bought this item from Tom Warfield at the bargain price of \$100 in 1967. It is obviously worth more today. The Stone Wall Brigade was named in Jackson's honor after he was mortally wounded at Chancellorsville and was the only brigade named officially after an individual. It had its baptism of fire at First Manassas, where Jackson got his sobriquet from a remark made by General Bee. This unit consisted of the 2nd, 4th, 5th, 27th and 33rd Virginia Infantry Regiments. It served with Jackson at First Manassas, during the Valley Campaign and then as part of "Jackson's Corps" in the Seven Days' battles. At that time, it was commanded by BG Charles S. Winder. Subsequently, it was attached to Major General Edward Johnson's Division of the Second Corps under the command of BG J.A. Walker. This unit name does not appear in any of the reports prior to the fall of 1863.

- 1910 Winchester. CHARLES B. ROUSS' AUCTION HOUSE. 5c. (PW70-30). R-7. Ex Affleck, Lot 1666, VNA plate note. Fair-Good, badly split, small holes, stained, backed. (Photo) (\$200-Up)

The Rouss family was comprised of prominent local businessmen who, among other benevolence, founded and endowed the Rouss Volunteer Fire Company. The family tomb, up on "the Hill", consists of a 30 foot long replica of the Parthenon, complete with Tiffany glass and a obelisk that would have done an Egyptian pharaoh proud.

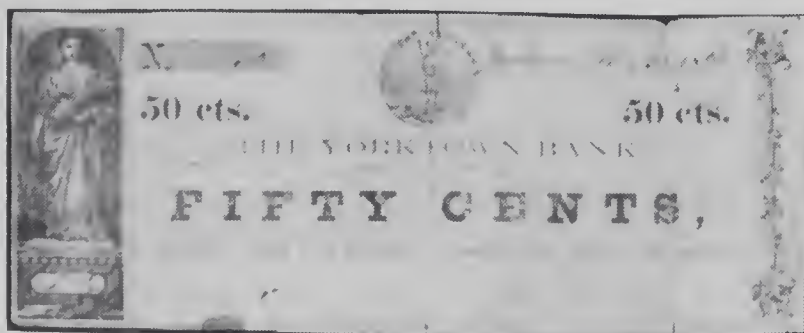

The funeral of the last prominent member of the Rouss family in early March, 1933, proved unexpectedly memorable. On that day, the Farmer's and Merchant's Bank, at which Madge Hunter, Charlie Affleck's sister, worked, was opening their new headquarters, away from the original Court House Square building. Smalt's, the florists, out on Route 7, got the orders for both events. Due to a mixup, the orders were reversed. Anxious depositors attending the opening, amid a mounting banking crisis, were not reassured by a black crepe festooned wreath, mournfully inscribed "With Deepest Sympathy". Meanwhile, up at the graveside, those who had come to pay their last respects were greeted with a cheery floral arrangement with bright red ribbons inscribed "Congratulations on your new location". The minister, extemporizing, availed himself of the opportunity posed by this error, to deliver a homily as to why the decedent should be congratulated on his new location (presuming of course that he went to Heaven).

Thanks to this snafu, Smalt's became a laughing stock in the town. But the florists had the last laugh. People learned their name and ordered flowers from them, the firm still being in business sixty years later.

- 1930 Charlottesville. MONTICELLO BANK. \$50. (BC25-35). Abt VG, stained, left edge chinking. (Photo) (\$150-Up)
- This and the hundred are sleepers when compared with the \$6 through \$9 notes.

- 1940 Farmville. FARMVILLE SAVINGS BANK. 25¢. (BF20-25). R-6. Good, looks better, but the paper has a Lot of petty holes and splits in the body. (\$150-Up)

The note is printed on the back of an advertisement for "Mr. La Monte", who had opened a new school in Farmville under the patronage of such luminaries as Governor Wise and Senator James Mason of Virginia. The ad quotes the Winchester "Republican" and states that La Monte had formerly been a partner in the operation of the Valley Female Institute of Winchester, a vignette of whose still extant building appears on the notes issued by Gideon Jones, postmaster at Front Royal and on a group of bill headings and letters that appear in the fiscal paper section.

Most of these notes are counterfeit. However, the workmanship on this note looks authentic and it is printed on the bank's official interlocking ring watermarked paper, which did not become available until the bank's stock was sold off after 1841.

- 1952 Norfolk. BANK OF VIRGINIA. \$20. (C-304). SENC. Ex Abner Reed, Lot 1447. G-VG, small body holes, a rounded top left corner tip and a glassine strip repair to the right side, where the upper corner tip is broken off. (Photo) (\$150-Up)

Rarely Seen Bank

We believe that the signatures are spurious.
1959 Richmond. PHOENIX BANK. \$7. (BR80-16). R-7. VNA plate note. Ex Affleck, Lot 1760. G-VG, with a fair amount of fold splitting and staining to the right of center. (\$150-Up)
We believe that the signatures are spurious.

- 1960 Richmond. "RICHMOND BANK". \$5. C. Unlisted. The paper is watermarked "S.T. & Co". VF-EF, POC. (Photo) (\$200-Up)
The Bank of Richmond was chartered in the 1850's whereas this note clearly belongs by workmanship to the period 1800-1810. The only bank in Richmond at that time was the Bank of Virginia. We believe that this is an early spurious note.

Slightly different from the versions we offered in our Dr. Jackson/Memphis 1990 Sale. There is a pencil notation at the upper left "Proof from 1st Plate". The impression is as bold and vivid as you would want to see on a federal proof. The four note sheet in the Jackson Sale brought 9,350 (including the 10%). Certainly this would be a highlight in any Federal note collection!

GEORGIA

Extraordinary Georgia "Baby Bond" Group

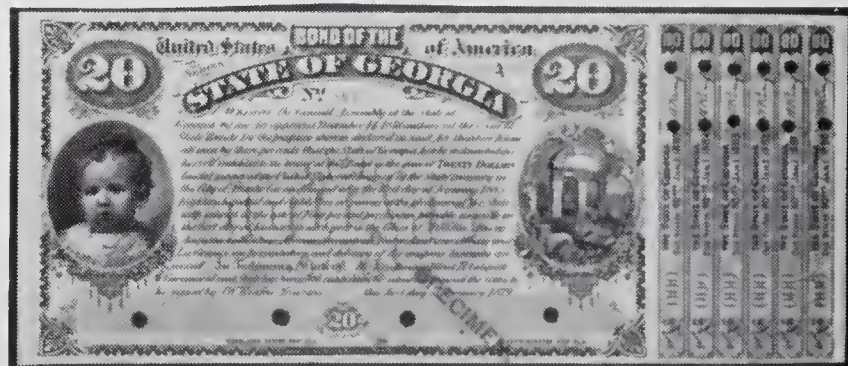

- 2129 STATE OF GEORGIA. \$5. (Cr.78A). Plate A. No.4. Green face tint and back. Specimen, and so stamped on the back. Unc, POC. (Photo) (\$500-Up)

There is an ink notation on the back saying the order was placed January 15, 1879. About three issued items of this denomination are known; plus three proof/specimens, the proof being cut out and in poor condition. This series of items have been styled "baby bonds" not only because of the toddler depicted at the left, but because of their small size. While the interest paid on them was at a market level, their dimensions, their issuance in low, currency style denominations and so forth made them bills of credit (currency) in effect, and the Federal Government moved in and compelled the abandonment of planned large scale issues. This accounts today for the masses of unused Louisiana "baby bonds" and the great scarcity of the Texas "baby bonds" with only two issued representatives and five proofs being known to us of that emission. Ex ABN Archives.

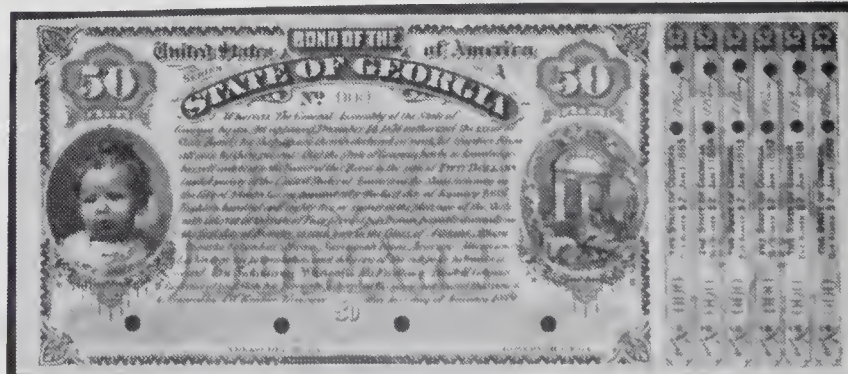

- 2130 STATE OF GEORGIA. \$10. (Cr.78B). Unlisted denomination. Green face tint, light brown back. Specimen and so stamped from the ABN archives as the preceding. Unc, POC. (Photo) (\$750-Up)

This is the only specimen of this Essai denomination known to us. Unlike the more available \$5 note/bond, this and the two additional denominations which follow all have brown backs.

Contrary to the Haxby book, the head left is that of Wellington, the heads flanking the sailor are those of Minerva (Athena); the sailor is a redone version of Lord Byron sailing for Greece and the figures right may be those of Perseus and Andromeda.

A Run of Rare 1893 Clearing House Certificates.

- 2175 Fall River. BARNARD MANUFACTURING CO., per the Massasoit NB, through the Fall River Clearing House. \$5. August 9, 1893. U. AU, POC, with an edge chink and bottom edge folding. (\$150-Up)

This and the following three items were issued by Massachusetts manufacturing concerns to pay their employees during the panic of 1893. With cash being hoarded and in any case in short supply, the clearing house in Fall River authorized the issue by its member banks of certificates for settlements within the clearing house so as to conserve actual cash for legally required payments. Many banks took their or other banks' certificates and paid them out to their depositors, who in turn paid them to their employees. They thus became a kind of emergency money. Such notes appeared in 1873, 1893, 1907 and 1932/3. The earlier the item, the rarer it is, taken as a whole.

THINKING OF SELLING . . .

STOCKS & BONDS and PAPER MONEY . . .

Memphis is the Perfect Place,
June is the Perfect Time

Every year in June, the largest paper money show in the United States is held in Memphis, Tennessee. This show brings together dealers and collectors of paper from all over the world. This year, we will be conducting a major mail bid auction of U.S. and International Paper Money, Stocks, Bonds and Related Items. Lots will be shown in New York City and in Memphis, and bids will be accepted through June 25th. If last year's mail bid auction was any indication than this one will surely be one of our best sales of the year. Consignments are being accepted now.

An Important Announcement - R. M. Smythe & Co. has been selected as the Official Auctioneer of the Memphis International Paper Money Show in 1993. The last time we conducted a public sale in Memphis the prices realized totalled well over \$1,000,000. There will be room for a limited number of major collections so please plan ahead to avoid disappointment.

The consignment deadline for our Memphis 1992 Auction is April 16. To consign, please call Bruce Hagen, Stephen Goldsmith or Diana Herzog at 1-800-622-1880.

- 2240 NY: Sherburne. JOSHUA PRATT & COMPANY'S BANK. \$1-2-5-10. (G-2a,4a,8a,10a). All SENC. Green tint. Proof, on india paper only. VF, ink notations on face. There is a tape stain along the top left edge. (Photo) (\$1000-Up)

This extraordinary item was found in the correspondence files of the American Bank Note Company, in the file of a Chilean private bank. It was apparently pulled out of the archives, to propose changes for the Chilean bank; these are noted on the face in black pen, including the denominations. We did not find any Chilean notes made in this form so this project may never have been pushed through. If it had, ABN would have slugged the Chilean with \$1000 of plating charges even though the plate changes would have cost less than \$250 to effect. It is also important to note that this sheet proves that the \$3 and \$20 were probably made on a half sheet. Otherwise, one would assume a sheet array of \$1-2-3-5; \$10-20.

- 2241 NC: BANK OF WASHINGTON. \$3-4-5-10. (G-2,6,10,14). Proof, on card. Unc, POC. (Photo) (\$200-Up)

Evidently the authors in Haxby failed to realize that the presence of the DB imprint with ABN monogram on two notes required the existence of a \$3 and a \$10.

- 2244 "Commission Business" Book. Pages 46-103. Some handling, otherwise nice. (\$400-Up)

This book contains 58 pages filled with business problems for various types of firms and with facsimile money. The student at the business college would cut out the notes and do all the various problems paying out change, making double or single accounting entries as the case might warrant. There are also problems for firms using discount currency. A must for the collector of college currency.

POLITICAL AND EPHEMERA

Famous Robinson Bank War Cartoons

The following three lots represent some of the most famous political cartoons of the Jacksonian period. They frequently appear in history and political texts and are certain to attract the attention of serious numismatists and historians.

- 2301 THE DOWNFALL OF MOTHER BANK. 365x270mm. "Draw'd off from Natur by Zek: /Downing, Neffu to Major Jack Downing". Printed and Publ'd by H.R. Robinson, 52 Courtlandt St't, N-York. EF, a center fold, rim mounted. (Photo) (\$500-Up)

This is the famous cartoon satirizing Jackson's removal of the deposits from the Second Bank of the United States. The imprint spoofs Jackson's notoriously poor spelling. At the right is the president holding up his order, with one of his ignorant southern supporters cheering him on. At the left is the collapsing facade of the Second Bank building at Philadelphia. The newspaper names and sums of money attached to them allude to Nicholas Biddle's newspaper publicity campaign during the struggle with Jackson. Lawyers flee with their fees while Webster and Clay attempt to flee at the left. Biddle himself, to the left of center, dressed and looking like "Old Nick" (the Devil) also flees with the stated intention of resigning his presidency, although in fact he did not unfortunately do so for another five years. The cartoon supports Jackson's move and attacks the implied corruption and financial unsoundness of the Bank.

- 2302 Fac-simile 50¢ note 460x290mm, attacking Presidents Jackson and Van Buren for their hard money policies and their role in the Crash of 1837. Registered in 1837 by H.R. Robinson of 52 Cortlandt St, NY. EF, center fold, rim mounted as last. (Photo) (\$750-Up)

The symbolism of this satire is at several layers. At the left, Van Buren, while pledging his support to Jackson's policies, rides a fox (his political symbol) down the hill, deserting his mentor, his coronet, as "Earl of York"-symbol of his political power in New York-falling from his head. At the right, Jackson rides a pig off a cliff (a parody of the biblical Gadarene swines' stampede into Lake Tiberias) in pursuit of the "gold humbug", the Jacksonian goal of an all gold currency. Behind Jackson, riding a donkey (the symbol of the Democratic Party), is Senator Benton of Missouri. He proposed the gold policy and is waving a pen alluding to his struggle to expunge a Senate vote of censure against Jackson. At the lower right, Nicholas Biddle standing on his bank building, incorrectly predicts a change of policy. The note strongly blames Democratic hard money policies for the crash and the flood of quasi-counterfeit money (shinplasters).

- 2303 "Sub-Treasury System, or Office Holders Elysium". by H. R. Robinson of New York. 460x290mm. EF, center fold, rim mounted. (Photo) (\$500-Up)

The symbolism of this cartoon is as follows. At the left the Beast of Revelation (Satan) warns that he, not the Bank of the United States is the real monster and tramples on the symbols of farming, trade, manufacturing and commerce. At the center, American citizens are compelled to pay specie into the United States Sub-Treasury. Coin was hard to get because of the bank suspensions and the adverse balance of trade; therefore coin was at a great premium against paper money. Thus those underneath the chest, the government employees, are in effect being given highly preferential treatment. At the right, Van Buren, paraphrasing a remark of Napoleon about controlling the sword and purse entertains delusions of despotism. To the right is Congressman Churchill C. Cambreling, the "short-stout" originator of this idea, whom Van Buren hands a bag of gold. Note the dog's uplifted leg near Cambreling's.

- 2304 CAPITAL STOCK CERTIFICATE for the World's Columbia Exposition in Chicago, 1892. 500x375mm. Water and other stains in a line under the vignette of Columbus' Landing, stains at the top. (Photo) (\$250-Up)

This certificate, given to T. Christiansen for paying for his exposition share ahead of time was given to similarly situated persons as a tangible mode of thanks. At the center is a 285x198mm vignette by Rand, McNally & Co of Chicago, which mimics the smaller vignette of Columbus' Landing used by the United States on its Original Charter National Bank Notes. This item is framed and glazed, the frame being a crude, thin black item.

There is one for 4c, one for 25c, five for 20c, fourteen for 30c, and seventeen for 10 cents. These have a catalog value of about \$600.

2315 - 2800 No Lots.

- 2306 AMERICAN BANK NOTE COMPANY. Advertising Card. 198x121mm, with Lincoln, Czar Alexander II and General Grant. Small vignettes of Franklin and Washington as used on stamps are in the lower corners. Unc. (Photo) (\$150-Up)

The reason for honoring the Czar was that in 1863, when many feared that Great Britain and France might go to war in support of the Confederacy, the Russian fleet paid a courtesy call at New York that was interpreted in Washington as a gesture of support. In point of fact, the Russians were busy suppressing a Polish revolt and feared French and British intervention on the side of the rebels. To clear the decks in such an eventuality, the Russian fleet left its easily blockaded ports and came to the United States from whose harbors the Russians planned to prey on British and French shipping. War did not occur and so the Czar recalled his fleet. This friendly incident caused the Czar in 1867 to approach the United States with a view to selling Alaska, and Secretary Seward and the Congress, anxious not to offend a soft disant friend, made the purchase.

- 2307 SECURITY BANK NOTE COMPANY. Advertising Card. Eagle and fancy border work. 232x141mm. Unc, a punch hole in the top margin. (\$125-Up)

Extraordinary Exposition Vignette

- 2308 NATIONAL BANK NOTE Vignette for a Centennial (1876) Certificate. 527x309mm, the vignette being 383x48mm. Unc, but some edge tears and foxing. (Photo) (\$500-Up)
The scene depicts various persons bringing products, arts, crafts and inventions to Columbia, who is seated in the center and distributes laurel wreaths to the worthy.

A Collection of Celluloids

- 2309 Election of 1888 and Other Items. [4] (\$150-Up)
1) Strip of four pictures of Benjamin Harrison, his wife, his Vice President Levi Morton and Mrs. Morton. Each picture is enclosed within an engraved frame. 2-3) Same pictures, not within engraved frames, of Harrison and Mrs. Harrison. 4) A celluloid of President Cleveland, sewn to a red, white and blue ribbon, and clearly intended as a campaign item. All seem to be in pristine condition.

Choice Starter Collection Of Vignettes

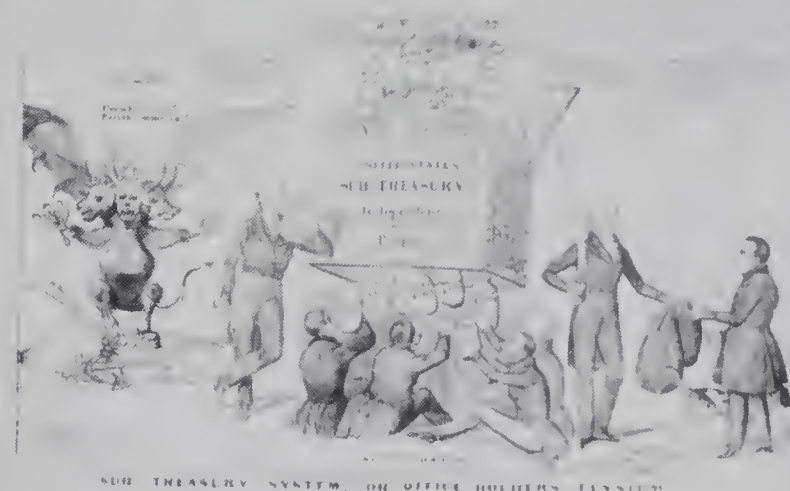

- 2310 A Fine Collection of Vignettes, Presidents, Statesmen, Military Leaders, Allegorical Figures and Government Buildings, Many used on Government Securities and all made by the Bureau of Engraving and Printing. [61] (\$325-Up)
Though the lot consists mostly of portraits, there are several buildings and some nice allegoricals. Most have been cut out of books. This would make an ideal start for a collection of vignettes as many of the classic portraits and other items are in here. Should Be Seen!

Another Nice Group Of Vignettes

- 2311 A BEP Group of Vignettes used on notes of all the major varieties as well as bonds and other government fiscal paper. This consists mostly of people but there are some allegorical figures. [48] (\$300-Up)
Over half are unfortunately cut-down. However there are several better Federal currency related vignettes including "The Pioneer" (Mr. Woodchopper), "America" as used on the \$50 Legal Tender notes and a few small National Banknote vignette items. Again should be seen and would make a nice start to a serious collection.

- 2312 Assorted Proof Vignettes. Contained in a brown album. [29] (\$300-Up)

These vignettes contain a few BEP items used on U.S. currency, other items used on Obsolete banknotes and other items used on private stocks and bonds. There are two number medallions and another item "Horse Fair" which shows the proof and the original engraving of the painting in color. The work is done by ABN, NBN, HLB etc.

So Rare that it is unpriced in Pick. In the November, 1990 ABN Archives sale, one lot of specimen notes from this bank appeared with 15 P-S816s (the catalog description had unlisted bank at the time due to the 5th edition Pick being used) and a P-S818 1 Peso note. That lot brought \$2,090 to a well known gentlemen who deals in Colombian banknote material. Certainly this choice issued note is worthy of a strong price.

There is the head of an indochinese man in the blank spot, lower right, crossed off. As the paper is not watermarked in the usual French manner, we believe that this is a copy of the proposed watermark. This note, with France, in Gaulism costume with her arm around an indochinese man at the left, does not resemble any of the published notes.

PERU

- 2897 Lima. EL BANCO GARANTIZADOR. 10 Centavos. (P-S161). AU, a pinch and a corner fold. Choice for the Issue. (Photo) (\$200-Up)

Please see the separate plate pages for the photo.

- 2899 Lima. EL BANCO DEL PERU. 10 Pesos. B. (P-S352). Rare Contemporaneous Counterfeit-First we have seen. Fine, a large tack hole at the right. Pin holes at the left. (Photo)

It is impossible to estimate this item. The workmanship is clearly below that of ABN as illustrated by those notes which we have handled.

Please see the separate plate pages for the photo.

- 2900 Same as the preceeding, but No.12099, with different printed signatures. EF, slash cancelled. Pin holes at the left.

Not that this and the preceeding note all have pin holes at the left. The Counterfeiters would deliberately pin hole notes to give the public the impression of circulation and particularly their being handled by other banks, which traditionally pinned notes together.

- 2901 Lima. LA COMPANIA DE OBRAS PUBLICAS Y FORMENTO DEL PERU. 1 Sol. (P-S444c). Back overprint reads "Emission Autorizada por el Gobierno". VF, plus, quarter folded. (\$100-Up)

The printed signature at the right is that of Henry Meigs, the American engineer who constructed much of Peru's extraordinary railroad system into the Andes.

PORTUGAL

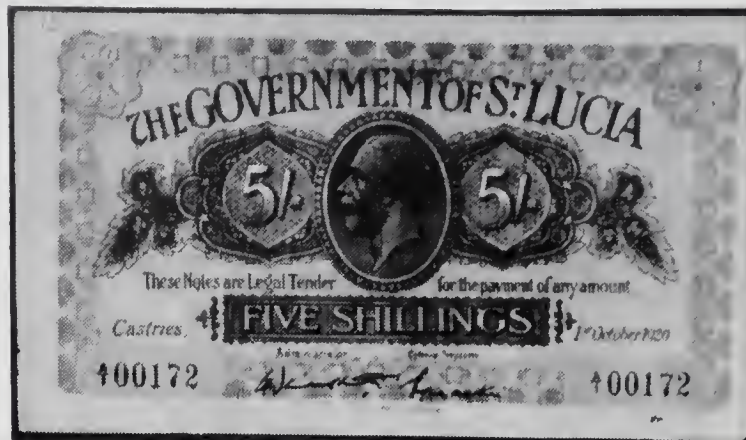

- 2902 BANCO DE PORTUGAL. 500 Escudos. (P-90). Specimen by Waterlow. Unc, POC, with lower left corner mishandling. (Photo) (\$250-Up)

This note has an extraordinary story behind it. In late 1922, a Portuguese engineer, Alves Reis, conceived an extraordinary scheme to help develop the Portuguese colony of Angola. With the aid of various shady associates, he bamboozled Waterlow & Sons, which had the contract to print Bank of Portugal currency, into printing a duplicate issue of these notes for use in Angola. They were supposed to be surcharged, but taking advantage of a bank charter he had corruptly procured from the Portuguese Assembly, he instead employed them as capital for his bank. Ultimately he was tripped up by the duplicate numbers and sent to prison. But the resulting scandal led to a military coup and a dictatorship, (1926-1974) that was presided over for many years by Antonio Oliveira Salazar. See M.T. Blom's Money of Their Own.

ST. LUCIA

Another Discovery Note

- 2903 GOVERNMENT OF ST. LUCIA. 5 Shillings. Unlisted. Green and purple with a blue back. Fine, bright with trivial soiling. (Photo) (\$2000-Up)

This note was once listed in Pick, together with the related 10 shilling note as S101 and S102, but were removed when no examples of the 1 October 1920 issue turned up. It is assumed that the notes were never or issued or they had been entirely redeemed. It is not every day that we have the honor of offering a supposedly extinct issue. We would not be surprised to see a very strong four figure price; since their has been considerable interest in it since we showed it at our table at the New York International show and since its publication in the February Bank Note Reporter (our thanks to Colin Bruce at Krause).

VIETNAM

- 2904 SOUTH VIETNAM. 200 Dong. (P-14). Specimen. Unc, POC. (\$200-Up)

Choice French Gold Medal

- 2962 **Napoleon I. Gold Medal (26.2 grams)** commemorating his coronation in 1813. 32mm. By Andrieu. **Extremely Fine**, but formerly mounted, light hairlines from an old cleaning. (Photo)
The reverse symbolizes the coronation of the emperor. Napoleon is shown being raised on a shield by a Senator and a soldier of the Army. The motto "Le Senat et le Peuple" echoes the ancient Roman formula "Senatus Populusque Romanus" (The Senate and the Roman People). The symbolism of an emperor elevated on a shield (a late Roman practice) clearly indicates Napoleon's desire to claim a successionship of his empire to that of ancient Rome. His desire was to usurp the position formerly held by the Holy Roman Emperor.

Active from 1871 to 1891, the Baltimore & Potomac Railroad is now part of the Philadelphia, Wilmington and Baltimore Railroad. Anyone composing text on a modern computer knows the ease of correcting an error, but what happened when an engraver had to make a change or correction in a steel plate? We spoke to a Bureau of Engraving and Printing representative and we learned that it wasn't always as serious a problem as we had imagined. The engravers were sometimes able to punch the plate from behind, raise the metal under the area where the mistake was made, grind the error smooth and then engrave the correction into place.

To add to his credibility, Richard's brother George was a partner of J.P. Morgan.
